## about us

R.E. Garrison Trucking, Inc., was founded over 50 years ago by Mr. Roy Garrison. He started with one truck transporting poultry to the West Coast and bringing produce back to the Southeast. Though Roy is no longer active in the trucking industry, he built this business on the three basic principles of:

- Hard work
- Honesty
- Fair play

Each of us at R.E. Garrison relies on those principles to this day!

**THE BEST TRUCKING  
DECISION YOU  
WILL EVER MAKE**

# letter from the owner

We believe that when a customer entrusts their product with us, we owe them clean, well-maintained equipment manned by courteous professional driving personnel.

At R.E. Garrison, we are determined to bring you the highest standards of quality in all of your carrier needs!

At the age of twenty-one, I was working my first job in the transportation industry loading and unloading freight on a dock at Brown Transport. Not many years after, I was hauling freight back and forth to California weekly, dispatching trucks for a local trucking company, and completing every bit of the maintenance on my own trucks.

In 1991, after my son, Donovan Lovell and family friend, Wyles Griffith had returned home from college, we teamed up with friends to learn how we could get in the transportation industry. We knew a little about transportation but after working with our friends and family we decided to make a go of it. As a truck driver, I had over twenty years of experience on the road, but I didn't have the knowledge to run the day to day operations. My son and Wyles were determined and ambitious though, and I wanted to do what I could to help them be successful.

That year we started Heart of Dixie. We purchased our first three trucks in 1993; three Peterbilts, and then increased to five trucks in 1994. We continued to grow our fleet and worked hard to build a reputable and reliable company. Then in 1996, we joined our forces and purchased R. E. Garrison Trucking, a family raised company also built on the principals of hard work and trustworthiness. Our goal was to keep those attributes alive and R. E. Garrison prospering.

Many years later, the same principals guide us every day. Donovan, Wyles, and I are still involved with the day-to-day operations to ensure the highest quality of customer service. Our team has come a long way over the years and I am proud of what we have built. I want to thank you for the opportunity to introduce you to our company today.

Thank You,

Jerry Lovell
